Installation Guide

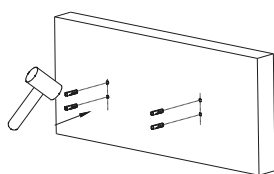

01

Mark the position

Choose the installation height and check for concealed services. Remove the mounting plate using the supplied Allen key.

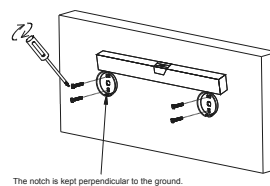

02

Drill the holes

Hold the mounting plate against the wall, mark the fixing holes and drill using a suitable bit.

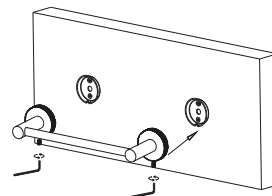

03

Secure the plate

Insert suitable wall plugs and screw the mounting plate securely to the supporting wall.

04

Fit the hand towel rail

Position the hook over the mounting plate and tighten the concealed grub screw. Check that it is straight and secure.

IMPORTANT INSTALLATION NOTES

Use suitable fixings secured to the supporting wall, never relying on tiles or plasterboard alone, and avoid overtightening. Do not place weight on the towel rail until all fixings are fully secure. Confirm wall plug suitability and the shelf's maximum safe load before publication.

Care & Maintenance

MILD SOAP & WARM WATER

Clean gently to keep the surface bright.

SOFT CLOTH ONLY

Never use scourers or rough pads.

NO CITRUS, BLEACH OR ABRASIVES

These can damage the surface and affect longevity.

Compliance

INSTALLATION STANDARD

AS/NZS 3500.1 & 3500.4
