# Installation Guide

PLUMBER REQUIRED AS/NZS 3500

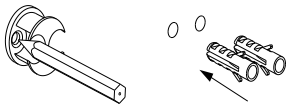

01

**Mark the position**

Choose the installation height and check for concealed services. Remove the mounting plate using the supplied Allen key.

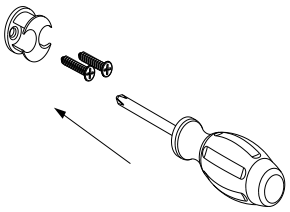

02

**Drill the holes**

Hold the mounting plate against the wall, mark the fixing holes and drill using a suitable bit.

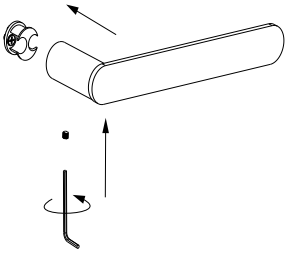

03

**Secure the plate**

Insert suitable wall plugs and screw the mounting plate securely to the supporting wall.

04

**Fit the robe hook**

Position the hook over the mounting plate and tighten the concealed grub screw. Check that it is straight and secure.

**FINAL CHECK · DISCLAIMER**

Do not place weight on the robe hook until every fixing is secure.

## Care & Maintenance

MILD SOAP & WARM WATER

Clean with mild soap and warm water.

SOFT CLOTH ONLY

Use soft cloth only.

NO CITRUS, BLEACH OR ABRASIVE CLEANERS

These can damage the surface and affect longevity
